## Manitowoc EnCore Remanufactured Electronics

EnCORE has been busy working on solutions to reduce the cost of ownership for Manitowoc Lattice cranes and now have EnCORE Remanufactured electronics included in our growing list of quality part replacement options available to Manitowoc owners.

Currently we are introducing two items into the EnCORE program and the list will continue to grow as we move forward with new parts being added regularly as we identify what your needs are.

The two items we are introducing are listed below.

P/N 3661130R Programmable Controller (EPIC)

P/N A093520R Graphical Display

Models M-50 thru 21000

Models 14000 and 16000

***Each comes with a one-year warranty!***

### How does the program work?

EnCORE remanufactured electronics are components that have been returned from the field and sent through our program of remanufacturing. In this program, the components are disassembled, inspected and tested for faults. At the same time, the units will be upgraded if required, to insure compatibility both forward and backwards. After remanufacturing they are run on a test bench and fully checked out for proper operation.

With the purchase of an EnCORE Remanufactured component you will be also charged a Core Charge. This insures that we can receive the Core back to our facility in a timely manner so that we can process the component and keep our program stocked with units available at all times for you. If the returned component meets all EnCORE return criteria then the full Core Charge will be refunded. Should any of the Core return criteria not be met the charges will be deducted from the core credit. A checklist will be provided with the details of deductions and criteria for returned components.

### How to order?

When you are looking for a lower cost alternative with the same Manitowoc quality, contact the nearest authorized Manitowoc Crane Care Distributor right away for all the details! To locate an Authorized Distributor near you, go to [www.manitowoccranes.com](http://www.manitowoccranes.com), click on the 'Find a Dealer' link at the top of the page.

**Questions?** Call Manitowoc EnCORE at 501-557-5800 or email [EnCORE@manitowoc.com](mailto:EnCORE@manitowoc.com).
