

Driving camera offer

Driving assistance: Work safely, whilst improving productivity!

Advantages :

- **Safety:** Optimal view (auto-focus function) allowing you to not only depend on instructions transmitted orally.
- **Productivity:** Accurate vision of the load position, of the hook and the unloading area thanks to its 480x zoom (40x optic and 12x digital).
- **Extreme conditions:** Operates on weather conditions from -40° to + 85°, anti-fogging system, night vision function (0 Lux).
- **Reliability:** Radio link up to 300M transmission with a perfect picture in real time.

For distributing cranes, camera kit ref. 84060746 containing:

Camera set: camera, batteries, radio link and accessories.

Installed below the trolley, pointed towards the load for a better view of the load area. Shock, vibrations and weather resistant.

LED screen 12":

Cup mount, shockproof and brightness automatically adjusted to light.

Auto-contact pack:

Allow you to recharge batteries when the trolley is at the jib foot position (mandatory when the crane is not operating).

Optional: Solar panel J-85985-58

Mounted on the trolley together with the battery pack: automatic power supply of the camera without any manual intervention.

For luffing jib cranes, camera kit ref. 84060747 containing:

Camera set:
Camera, feed, cable link and tilting support.

LED screen 12":
